7TH CLUSTERIN MEETING

The aim of this 7th International Conference is to bring together clinicians and scientists who work on Clusterin from gene to disease in the hope of initiating fruitful discussions and successful collaborations.

Thursday june 12th to Saturday june 14th 2014
UFR des sciences de la santé Simone Veil
2 avenue de la Source de la Bièvre
78180 Montigny-le-Bretonneux

The aim of this 7th International Conference is to bring together clinicians and scientists who work on Clusterin from gene to disease in the hope of initiating fruitful discussions and successful collaborations. Our purpose is also to offer our junior scientists a chance to present their works to a local, national and international community. Participants are

encouraged to submit high quality abstracts. The best abstracts will be selected for oral communication.
We look forward to seeing you in Saint-Quentin-en-Yvelines.
